**SIGNIFICANCE**

19. Briefly state historical and/or architectural importance (include dates, events, and persons associated with the site.)

This is a nice example of the most modest type of residence in the area. This house shows a curious phenomena peculiar to some of the earlier cottages where true lap siding was used. The siding is cut to butt into the corner boards and frieze boards rather than go under them. Originally a residence along the 400 block of West Street (Healdsburg Avenue). built between 1867 and 1876, this structure was moved to its present location before 1911 and was used as the first office of the Healdsburg Oil Co. when it was started by Alvin Pitts in 1912 and sold to A.C. Golpin that same year. This was the site of the first Shell Oil Co. in Healdsburg.
