DESCRIPTION

- 7a. Architectural style: Queen Anne
- 7b. Briefly describe the present *physical description* of the site or structure and describe any major alterations from its original condition:

This small one-story cottage has a combination of hip and gabled roof. The gables contain either multi-lite fixed sash windows or gabled vents and are filled in with cut shingles, flared at the bottom, with a simple bargeboard. The windows are double hung with small cap molding on some. The siding is channel rustic, and the front gable has a narrow angled bay underneath, with large angle brackets with a sunburst motif. The small entry porch is recessed under the main roof and has turned columns. The original porch brackets and balustrade system is missing.

8.	Construction date: Estimated <u>1890</u> Factual
9.	Architect

- 18. Related features: Tall redwood trees

## SIGNIFICANCE

19. Briefly state historical and/or architectural importance (include dates, events, and persons associated with the site.)

This is a good example of Queen Anne cottage architecture, showing the reliance on the narrow gabled bay, with its wide sunburst brackets, to be the focal point of the exterior design. The Charles Ames home was built circa 1890. It is most noted for being the home of Charles Ames' daughter, Nercilla Ames Jones, R.N., who served as director of Healdsburg General Hospital from 1920 until her retirement in 1965. During her 45 years as director, Nercilla became one of the bestknown, and most trusted, residents of Healdsburg.
