## DESCRIPTION

- 7a. Architectural style: Gabled Homestead
- 7b. Briefly describe the present *physical description* of the site or structure and describe any major alterations from its original condition:

This brick house has  $1\frac{1}{2}$  stories with a central front gable intersecting the main gable roof. The molded cornice is boxed and the open gables have returns. The end gables have a single double-hung window while the front gable has a door that opens onto the flat roofed verandah. Other windows are also double-hung with flat lintel and sills. The centrally placed front door is paneled with multi-paned sidelights and transom. Four fluted columns support the verandah roof which has a wrought iron balustrade (probably a later addition or replacement). In the rear are two dormers and a shed roofed addition and to one side is a porte cochere.
